

602 W. WATER STREET

The original owner, Schall, is set in the second story building stone. It was built as a hardware store in 1882 and incorporated an existing structure from the 1840's. In 1924 John and Lil Hotmar acquired the building, continuing the hardware business until 1982. The Italianate design is evident in the flat roof, projecting eaves, brick finish and tall arched windows. Acquired in 1998 by Twister, building renovations revealed the large display windows and original interior features including the maple floors, wood ceilings, and two-story fieldstone firewall. Twister is home to A Lifestyle Emporium & Espresso Café, Law Office, & loft residence.
