Daiseye

Group Concepts – 2007

Graphic design for print and web. Website design and implementation. Specializing in database-driven websites.

Daiseye – 2007

Daiseye is an eclectic marketplace offering earth-friendly products to enhance your living space. Here you will find treasures of simple beauty created from materials such as reclaimed wood and tin, recycled glass, and organically-grown herbs and fibers. Due to the nature of the materials and the fact that many of our products are hand-crafted, much of what we carry is one of a kind. For you, your home, and your conscience. Intelligent. Innovative. Unique.
